Tawnja Zahradka Wins CD6 DFL Endorsement for the United States Congress

Former Mrs. Minnesota America and T.V. Personality Tawnja Zahradka defeated her two male challengers Ian Todd and Curtis Hed to win the CD6 DFL Endorsement for the United States Congress on Sunday May 24, 2020.

Tawnja is a fighter and fierce advocate for those who face discrimination after surviving sexual harassment and discrimination in the workplace. Tawnja is fighting for fully funding education, protecting the planet, affordable healthcare for every American, ending Citizens United, protecting our farmers and unions and she is ready to fight for common sense gun laws to help protect Americans, without infringing on 2nd amendment rights. Tawnja is a Graduate of the University Of North Dakota graduating with Bachelor of Science degree in Communications. Tawnja has owned and operated her television production company for 25 years and has been a spokesperson for dozens of Minnesota Companies.

Tawnja and her massive team are ready for the fight in November to remove Tom Emmer from Congress. Tawnja believes a Congresswoman should listen to the people in her district and then fight for their needs. Tawnja believes Tom Emmer's voting record very clearly shows he's not working for CD6 but is only in office to glorify himself and to serve the agenda of the special interest corporate monies he continues to collect. Emmer's record of voting against the Violence Against Women's Act and his vote to not support the PRO Act which gives unions the right to organize are just a few of the obvious reasons Zahradka wants to show CD6 that Emmer is not doing his job.

Just before receiving the DFL endorsement, Tawnja was honored to receive the endorsement from the greatest generation- The DFL Senior Caucus.
